

DOMIDO GROUP – COOKIE POLICY

Last updated: 3 June 2021

This Cookie Policy is issued by **ESC EUROPEAN SMART CONSTRUCTION LTD** ("ESC" or "we").

Our website (www.domido.com) uses cookies to distinguish you from other users of our website. This helps us to provide you with a good experience when you browse our website and also allows us to improve our site.

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer if you agree ("**cookies**"). Cookies contain information that is transferred to your computer's hard drive.

We may use the following categories of cookies which differ by their function and intended purpose:

- **Strictly necessary cookies.** These are cookies that are required for the operation of our website. They include, for example, cookies that enable you to log into secure areas of our website, use a shopping cart or make use of e-billing services. Without these cookies certain basic functionalities cannot be offered. Strictly necessary cookies are always active and will be placed without your consent.
- **Analytics or performance cookies.** These collect information on your usage of our websites and allow us, for example, to recognise and count the number of visitors, to see how visitors move around our website when they are using it, duration and number of website visits. This helps us to improve the way our website works, for example, by ensuring that users are finding what they are looking for easily.
- **Functionality cookies.** These are used to recognise you when you return to our website, by enabling the website to store information and options you have already previously entered. This allows us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).
- **Targeting cookies.** These cookies record your visit to our website, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose.

We may place and access cookies on your computer or device, which are known as "**first party cookies**". Cookies may also be placed and accessed by third parties, which are known as "**third party cookies**".

It may be possible to refuse mobile cookies by activating the appropriate setting on your browser and/or smartphone. However, if you select this setting, you may be unable to access certain parts of our website.

The types of cookies described above may be "**session cookies**" or "**persistent cookies**". Session cookies are only stored on your device whilst you are using our website and are deleted when you log off from the website. Persistent cookies remain on your device for a period of time after you log off from

the website or close your browser.

Third Party Cookies

Some third-party service providers that we engage may place their own cookies on your hard drive or device when you use our website. These cookies may provide information to those third parties about your browsing habits or may be used for security.

Our website may contain cookies from third-party analytics providers, which help us compile aggregated statistics about the effectiveness of our operations. These technologies enable the analytics providers to set or read their own cookies or other identifiers on your device, through which they can collect information about your online activities across applications, websites, or other products.

Our website may use Google Analytics, a web analytics service provided by Google, Inc. ("Google"). They may use cookies that are stored on your computer or mobile device and contain information about your visit: duration, visited pages, country, browser type, device type, etc. To learn more about Google Analytics, including how to opt out of it, please visit <https://policies.google.com/technologies/partner-sites>.

Other similar technologies

We may also use web beacons and other similar technologies in addition to, or in combination with, cookies. This is typically done to maintain your preferences or to improve speed and performance by storing certain files locally. But, like standard cookies, these technologies can also store a unique identifier for your computer, which can then track behavior.

When You Visit Third Party Websites or Service

If you visit or use third party websites or services, those third parties may place cookies or similar technologies on your computer or device. For more information about what cookies or similar technologies those third parties use, please review the third-party services' cookie policies.

How to control cookies

You can block cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including essential cookies) you may not be able to access all or parts of our website.

If you want to find more information about the individual cookies we use and their purposes, or have any other questions, please **contact us** at privacy@domido.com.

Privacy Policy

Please note that our Privacy Policy governs our processing of your personal data in connection with our use of cookies.

If you want to learn more about cookies in general and how they work, please visit: www.allaboutcookies.org or www.youronlinechoices.eu
